① Read the passage and choose the answer which best completes sentence (1), and choose the answer which best completes each blank ① and ②. 〈大阪〉

A report on the views of high school students about social participation was made in 2021. **A** In this report, the words “social participation” mean any activity that students join both inside and outside school. According to the report, a survey was done to know two things. **B** One is the awareness of high school students about social participation. **C** These two things are used to find what kind of characteristics there are in each country. **D** Students in the following four countries joined this survey: Japan, America, China, and Korea. They were asked 28 questions, for example, “How interested are you in social issues outside school?”, and the students answered each question by choosing one answer. The table shows the percentages of the answers to one of the questions: “Are you actively participating in classroom discussions at your school?”.

We can find some things from the table. Some students didn’t answer this question, but if we compare the total percentages of the students who answered “Active” or “Somewhat active,” ① of the four countries. The total percentages of the students who answered “Not so active” or “Not active” are higher than 30% in ②.

【Table】

The percentages of the answers to the question: “Are you actively participating in classroom discussions at your school?”					
	Active	Somewhat active	Not so active	Not active	No answer
Japan	29.4%	52.6%	14.9%	2.5%	0.7%
America	27.1%	41.8%	20.4%	10.7%	0.0%
China	30.7%	45.0%	20.4%	3.9%	0.0%
Korea	32.6%	45.0%	15.4%	6.9%	0.2%
